This must-attend event brings together IP professionals from around the world to discuss strategies, trends, and best practices. More than 30 education sessions will be offered on patents, trademarks, copyrights, industrial designs, and – new this year – operations. In addition to the sessions planned by IPO’s Program Committee, several sessions are being organized by IPO’s Standing IP Committees. Organizing committees are noted in the session descriptions.

All sessions will be available on-demand for attendees to view anytime, anywhere. In the session descriptions that begin on page 8, IPO indicates which sessions will be live and on-demand as well as just on-demand. Dates and times for the live sessions will be announced in the coming weeks.

In addition to excellent educational sessions, IPO’s annual meeting is also known for its networking opportunities. We have designed the program with this in mind. Attendees will have the ability to reconnect with friends and build new connections through one of our many networking opportunities:

AVAILABLE LIVE AND ON-DEMAND

Monday, September 21 | 12:30-1:30pm ET

From understanding the wide applicability of design rights (Did you know you can get a design patent on a building? A computer icon? Paper towel embossed design?) to dispelling some pernicious misconceptions (a functional product *can be* protected by design rights), this session will provide the facts that attendees need to make more informed decisions about investing in and protecting their designs. Speakers will cover why we have design patents, clear up many misconceptions that exist surrounding design rights, and look at how design protection can fit into a holistic IP protection plan throughout a product's lifecycle.

For example, this session will cover what is an infringement and offer strategies for drafting design applications with enforcement scenarios in mind, so that the resulting patent is as effective as it can be. Speakers will also address the Federal Circuit's decision in the *Columbia Sportswear v.
