What Sets IPO Apart from Other IP Associations?

Our members are intellectual property owners in all industries and fields of technology. As a worldwide trade association, our goal is to serve the needs of corporate IP departments. Whether you have an IP team of 1 or 100, IPO is *your* association. Plus, IPO has a comprehensive membership structure.

One membership covers your entire team.

Connect with In-House IP Counsel

IPO Corporate Members – including in-house counsel at all levels and operations teams – collaborate and network year-round through a variety of IPO programs. Hundreds of organizations and more than 13,000 individuals worldwide are involved in IPO.

Committees and Resource Groups

Keep up to date on developments in your area of practice and build relationships with fellow professionals. IPO has dozens of active committees and resource groups working on the most important areas of IP law and practice. Because leadership positions are filled by in-house members, committees also provide professional development opportunities for your team.

Please see the last page for a list.

IPO Connect

This private online community, exclusively for IPO members, provides a forum for connecting with fellow corporate members and other industry leaders. It includes a member directory and resources for members to collaborate and support each other.

I encourage my entire IP team to take advantage of all that IPO has to offer. I know first-hand how participating in IPO supports the development of a diverse pipeline of leaders in IP.”

Join a Global Advocacy Network

With IPO, you have a voice in a highly influential government affairs program that engages legislatures, courts, and IP offices worldwide to advance the interests of our corporate members.

IPO advocates for high quality and enforceable intellectual property rights, and predictable legal systems for all industries and technologies.

Your team can work directly with other corporate members to develop IPO's policies and positions on key issues, study issues and publish reports, and educate other IPO members through webinars and conference panels.

Current advocacy programs include:

- Patent examination quality
- Fair, balanced, predictable, and efficient administration of post-grant proceedings the USPTO
- Opposing TRIPS Waiver at WTO
- Harmonizing international IP laws through participation in IP5, the Industry Trilateral, ID5, and TM5
- Combatting the sale of counterfeit goods
- Holding trading partners accountable for high quality and enforceable IP rights and predictable legal systems, including through USTR's Special 301 process
